UNITED STATES REVISES NOTE ON BRITISH TRADE EMBARGO

By International News Service.
WASHINGTON, Aug. 6.—The receipt of Great Britain's latest note on neutral commerce has compelled the State Department to revise the

note it had under preparation and to introduce several new points. The two most important features of the note will be an exhaustive treatment of Great Britain's enforced embargo on the Scandinavian countries and Holland, and a sharp demand that American goods be admitted without molestation to neutral countries.

The reply will say:
1. That, when Great Britain forced Denmark, Holland and the other smaller countries to agree to an embargo, it was a confession that it was her only way to prevent American goods going from neutral ports into an "enemy" country.
